------------------	---------

### Resultados Veteranos Machos

Connan	Exc. 1º
Iro de Laseles	Exc 2º

Mrs Sheila Burditt ha tenido la amabilidad de mandarnos sus impresiones.

SPANISH WATER DOG MONOGRAPHIC B

VALENCIA 14<sup>th</sup> DECEMBER 2013

Firstly I must apologize for my lack of Spanish vocabulary and hope that you all understood my instructions and I trust this critique will translate.

I would like to take this opportunity to thank the PDAE for their kind hospitality and for inviting me to judge our lovely breed. A big THANK YOU to Sandra, my steward, who kept the ring organised.

In my opinion the overall picture presented was of a sound base, there are different types which as to be understood, the original stock coming from various regions within Spain, although we are supposed to have the same breed standard !!!

I was looking for a well balanced Spanish that was sound throughout and fit for purpose. I found this in Best Dog and Best Bitch. Unbeknown to me they were from the same owners.

Temperaments were sound although a few were anxious, as have since learned having recently had the same experience myself. I always introduce myself to the dogs, this gives me the chance to check their alertness, either by lifting of ears or wagging of tails or stumps.

In general mouths were good but there were a few with almost level bites, my pet hate is dirty teeth. Please clean them you show goers.!!! Heads were of good proportions, very male or of feminine quality and found great expressions from oval good coloured eyes and was pleased with solid pigmentation.

Necks, shoulders and front couplings varied, from short to medium length necks --- upright to well laid back shoulder with a great length in upper arm. Some were narrow in front with insufficient brisket. All had good length of back coming from the rib not loin, I have a preference for length as they have more scope when moving. The surprising thing all had good well muscled thighs, congratulations you must work them hard !!!

I do like movement and I found my class winners had the correct gait being powerful, sound and athletic.

It was very noticeable the variety in coat, dark browns, blacks and creams lightening, a thing I am not accustomed to, all were curled according to length but the tightness of curl does vary. I was pleased to see that non had been aesthetically clipped. They are a rustic breed after all. I did comment that one, recently clipped, was so clean and felt like velvet.

Lastly having said all that it is my opinion and IT IS THE DOG ON THE DAY and I have been at the ringside on several occasions and thought why is this dog not showing so well today ??

Enjoy your showing but mainly YOUR DOGS remember you always take the best one home. Hope we will meet again.

Sheila Burditt
